

agriculture, land reform & rural development

Department:
agriculture, land reform & rural development
NORTHERN CAPE PROVINCE
REPUBLIC OF SOUTH AFRICA

3rd QUARTER
PERFORMANCE REPORT
2014/2015

OVERVIEW

The third quarter service delivery environment was characterised by enhanced implementation of the main programmes of the department at transformation and sustainable growth of the sector. Key amongst these is infrastructure development for smallholder farmers with the objective of increasing agricultural production in the province. A number of infrastructure development projects including CRDP sites were provided with support. This included construction of fences; installation of stock water systems; and development of irrigation system for vineyard development. Furthermore, through the *Flood Assistance Scheme*, farmers along the Orange River were assisted with the repair of flood protection walls. A total number of 62 final payment certificates were verified, compiled and submitted to reimburse the farmers with a total amount of R56 million.

A number of activities were undertaken to advance our provision of comprehensive support to farmers. These included extension advices provided to more than 1200 farmers; training and courses held for farmers; and support to commodity groups. All these activities are intended to ensure that farmers adopt more sustainable and productive methods which will result in increased production and growth of the sector. In addition, addressing food security is at the core of the work of the department. Accordingly, during the third quarter the commemoration of the world food day was used to launch the planting season.

The Comprehensive Agricultural Support Programme (CASP) and ILIMA-Letsema conditional grants were used to provide comprehensive support to smallholder farmers. A total of 10269 beneficiaries were supported; at least 1948 farmers were supported; and 80 work opportunities were created. In the fourth quarter increased effort will be placed in ensuring that all conditional grants projects are completed on time and in good quality. In particular the number of work opportunities created has to be enhanced in line with the department job creation strategy and Provincial Growth and Development Strategy.

The major highlight in relation to our work aimed at healthy animals, safe animal products and welfare of people of South Africa, was passing the Department of Agriculture Forestry and Fisheries (DAFF) Audit in the middle of this quarter (November 2014). This enabled the veterinary services laboratory to get accredited to perform tests for controlled diseases. The Mobile Veterinary Clinic is fully functional again and three very successful spay campaigns were held in Kenhardt, Petrusville and Phillipstown. The OIEs decision to re-instate the FMD free status without vaccination meant that the province could resume trade in clove-hoofed animals and their products. This has resulted in an increase in the number of certificates issued as seen in the last quarter.

The last quarter of the financial year will be used to complete and consolidate the programmes initiated at the beginning of the financial year. In particular, our work on comprehensive rural development will be enhanced as an increased number of rural communities require government intervention that will result in economic development and food security for all.

WVD Mothibi

Head of Department

PROGRAMMES & SUB-PROGRAMMES

PROGRAMME 1: ADMINISTRATION

The purpose of this programme is to manage and formulate policy directives and priorities and, to ensure there is appropriate support service to all other programmes with regard to finance, personnel, information, communication and procurement.

SUB-PROGRAMME 1.2: SENIOR MANAGEMENT

The purpose of the sub-programme is to translate policies and priorities into strategies for effective service delivery and, to manage, monitor and control performance.

PROGRAMME 2: SUSTAINABLE RESOURCE MANAGEMENT

The purpose of the programme is to provide agricultural engineering support service to farmers in order to ensure sustainable development and management of agricultural resources.

SUB-PROGRAMME 2.1: ENGINEERING SERVICES

The purpose of the Sub-programme is to provide engineering support (planning, development, monitoring and evaluation) with regard to irrigation technology, on farm mechanisation, value adding, farm structures, resource conservation management, operation and maintenance of farm equipment, machinery, tools and implements solutions.

Strategic objective annual target for 2014/15

Service Delivery Highlights

ZF Mgcawu-

Farmers of Pella were supported with development of irrigation system, trellising system, secondary pump station and fencing to establish 20 ha of grapes. A tender was compiled to develop 40 ha of vines at Vaaldrift for the Riemvasmaak community. Surveyed and compiled all relevant maps for ten applications for plough certificates received from farmers for the development of 276 ha of new irrigation. Farmers along the Orange River were assisted with the repair of flood protection works. A total number of 62 final payment certificates were investigated, surveyed, compiled and submitted to reimburse the farmers with a total amount of R56 million. A total of 18,4 km of flood protection levees were constructed and repaired.

Namakwa district-

Livestock handling facilities were designed for the Nguni project at Kabib and the construction of handling facilities at Leliesfontein was completed. Support was delivered with the installation of solar pumps and windmills for the farmers of the Khai- Ma commonage farms, Coboop, Pofadder commonage, Onseepkans, Springputs, Luttigshoop, Brabees, Hoogoor, Pella and Dabenoris. Installations are in different stages of completion. The department completed the design of a storage facility to be built at Kharkams for the Kamiesberg grain development programme. For the development of Henkries, 142 ha of land were surveyed for development and a tender compiled for an EIA to be conducted. The Onseepkans irrigation farmers were supported with the cleaning of the irrigation canal.

Pixlev Ka Seme district-

In promotion of LandCare initiatives two soil conservation structures were built on the Richmond commonage to reclaim 200 ha of natural veld that is badly eroded by gullies. Six projects were supported with development of infrastructure at Schmidtsdrift and Renosterberg commonages which is declared CRDP sites. Stock water systems were installed for Balie Trust, Renosterberg Municipality where 11 windmills and one solar system were erected and Schmidtsdrift where 3 solar systems were installed, 4190 m of pipelines laid and 14 drinking troughs installed. Renosterberg Municipality was also supported with two cattle handling facilities and Chikaina with development of piggery housing. Porky piggery was assisted with maintenance of infrastructure. Support the Kalahari Kid goat project by compiling a farm plan for Rooisand farm, compiled a tender for construction of 11,2 km of fencing and construction of three goat handling kraals while Boegoeberg farm was supported with compilation of a farm plan, compile a tender for construction of 32,5 km of fences and construction of 5 goat handling kraals.

Frances Baard district -

To prevent water logging and salinization of irrigation lands in Vaalharts installation of sub-surface drainage systems on 12 farms were completed and will service 233 ha. Smallholder farmers were also supported in completing 4 concrete lined overnight reservoirs to prevent leakages while another 2 overnight reservoirs are in process of construction.

The construction of a new communal main outfall water line started. This mainline will accommodate sub-surface water of 9 farms with a total of 225 ha of farmland.

John Taolo Gaetsewe district -

The farmers of Leinster, Bunhill and Magagwe were supported to complete the construction of 39, 5 km of fences. A contactor was appointed to install four solar pumps at Deben and Olifantshoek. A service provider was appointed to clean one borehole and drill one new borehole. Eight stock water systems delivering water to 32 drinking points were designed and tenders advertised. A farm plan and specifications were compiled for Magonate farm. Service providers were appointed to install eight solar pumps at Kilokilo and Abbey. A service provider was appointed to drill boreholes at Mathasdale, Magojaneng, Thamoyantche, Gamoseki and Mapoteng. The construction of reservoirs for stock water at Abbey, Leinster, Sydney, Manaaneng and Taunton were completed. The construction of stock handling facilities at Harrow, Ashfield, Darnall, Abbey and Mothanthanjaneng were completed. A stock handling facility was completed at Paardenkamp. Seokama Food bank, Gaserutege and Tswaraganang food gardens were supported with the design of store rooms.

LandCare ~

The following LandCare projects were supported – At Niekerkshoop prosopis control project 50 ha of bush clearance was done mechanically, at Magonate and Majeng 500ha of "acacia mellifera" (Swarthaak/ Mongana/ Black thorn) were chemically controlled. A total of 134 temporary jobs were created. Five wetlands were protected from further degradation in the John Taolo Gaetsewe district at Kampden, Bushbuck, Hestergeluk, Maruping and Legobate. A LandCare awareness day was held at Vaalharts research station and a total of 80 farmers from around Frances Baard district attended. At Aasvoelpan five boreholes were drilled of which one was successful.

Service delivery highlights

World Food Day

The annual World Food Day was commemorated at Bankhara Bodulong in the John Taolo Gaetsewe District on the 16th of October 2014. This also signaled the start of the planting season for summer crop and the MEC did a symbolic planting at theltekeng food garden. The MEC also visited the Food Bank at Seoding. During the same period the MEC also launched a partnership between the Depart and Sebilo Resources, a Manganese company to supply water for livestock to 13 villages around Tsineng.

Fetsa Tlala

The winter crops that were planted in the various districts were harvested during this quarter. Soil preparations were also undertaken to prepare for the planting of the summer crops. For the current summer planting season the total of 1313 hectares were planted:

Namakwa- 505ha ZF Mgcawu- 14ha Pixley Ka Seme- 17ha Frances Baard- 757ha JTG- 20ha

Specific Support to Farmers

Additional efforts were made to get more farmers to farmers' days and demonstrations to enable them to farm sustainable and efficiently for example at Coboop, Leopeng and Beauvillon. Young people at Pniel are participating in Fetsa Tlala programme.

CASP

For the quarter under review, a total of 6829 beneficiaries out of a planned 6818 were supported through the CASP grant from 22 projects. Out of the supported beneficiaries, 2337 are female and 625 are youth, with a total of 2 disabled males. The support provided consists of infrastructure development in a form of livestock fencing; stock water; livestock handling facilities; farm mechanization; hydroponics; piggery housing and production inputs.

PROGRAMME 4: VETERINARY SERVICES

The purpose of the programme is to provide veterinary services to clients in order to ensure healthy animals, safe animal products and welfare of people of South Africa.

SUB-PROGRAMME 4.1: ANIMAL HEALTH

The purpose of the sub-programme is to facilitate and provide animal disease control services in order to protect the animal and human population against identified infectious, zoonotic and / or economically important diseases, through the implementation of the Animal Diseases Act (Act 35 of 1984), and primary animal health programme/projects.

Strategic objective annual target for 2014/15

| 5211 | N E VENE | Audited | I/Actual perfo | rmance | Estimated | Medium-term targets | | | | |

SUB-PROGRAMME 4.4: VETERINARY LAB SERVICES

The purpose of the Sub-programme is to render veterinary diagnostic, laboratory and investigative services that will support the control of animal diseases for adherence to hygienic standards and to generate data. The veterinary Lab Services primarily provides support services to the strategic objectives of all the sub-programmes of the programme.

Service Delivery Highlights

There have been a number of challenges for Animal Health in the third quarter. One of the biggest problems is the shortage of Animal Health Technicians in the province. The recruitment process for the appointment of additional animal health technicians was initiated during this quarter and the plan is to have these posts filled in the fourth quarter of the financial year. Another huge challenge is the massive growth of the buffalo industry and the increased demands from clients in that regard.

In spite of the challenges and based on the comments made by the OIE in the report they presented on Veterinary Services in South Africa early this year, we have managed to start with provincial farm and livestock censuses.

Our aim is to complete a quarter of the farms by the end of this financial year and we hope to achieve that still. The Mobile Veterinary Clinic is fully functional again and three very successful spay campaigns were held in Kenhardt, Petrusville and Phillipstown.

The Northern Cape Provincial Veterinary Laboratory obtained its DAFF approval certification on the following test methods: Rose Bengal Test (RBT), PCR diagnosis of B. Anthraces, Direct Microscopy examination for the identification of Psoroptes Ovis and preparation of blood for Gamma Interferon assay for the diagnosis of Mycobacterium Bovis. This is a milestone worth celebrating. The Laboratory has in earnest started preparations ISO17025 accreditation in the new financial year. The stakeholders seem to be gaining confidence in what the laboratory is doing as evidenced by the number tests conducted in the quarter.

The major highlight for the Department was passing the Department of Agriculture Forestry and Fisheries (DAFF) Audit in the middle of this quarter (November 2014) and therefore getting accredited to perform tests for controlled diseases. The increase in the number of samples received in this quarter is mainly attributable to the surveillance and backtracing of Newcastle disease which the laboratory initially picked up at postmortem from ostritches that came from Phokwane Municipal area and the backtracing of buffalo TB (Tuberculosis) cases which were diagnosed in Sol Plaatje Municipal area.

Service Delivery Highlights

Research

The department facilitated the revision of the grazing capacity map for the Northern Cape Province. Departmental representatives and organized agriculture were consulted in this process. The methodologies and approach was explained to provide a better understanding of the steps taken to create the proposed revised grazing capacity map. Also, a map that indicate the percentage change in the grazing capacity values from the 1993 grazing capacity map to the newly revised map, was shown to the representatives. Areas with a change in the grazing capacity of more than 20 percent and 100 percent were highlighted to indicate possible areas of higher priority. However, the values for the entire province were re-evaluated and after the consultation with the representatives from the various regions, revisions to the boundaries and values were made.

Support to Development Projects

A pivotal role was played in the drafting of a development plan for the irrigation areas of the Namakwa District which is one of very few areas in South Africa where high quality arable land together with water licenses from the Orange River are readily available for the economic development of local communities. This report explores the feasibility of investment into the development of the potential irrigation areas of the Namakwa District in order to unlock the agricultural potential of this district through irrigated farming with high value crops.

The primary objective of the proposed agricultural development is to stimulate the economy of this district in order to ensure sustainable economic growth, job creation and economic empowerment of poor rural communities. The scope of this project will be to develop approximately 3 200ha of high potential arable land in the Namakwa district. This arable land is located in eleven distinct areas of the District and for the purposes of this report, each of these have been described, planned and costed individually. Of this identified land, approximately 2 000 ha have existing licenses to extract water from the Orange River for irrigation purposes. Water licenses for the irrigation of a further 1 200ha will have to be secured.

The basket of products to be produced varies from cash crops such as lucerne and grains, but the bulk of the development is aimed at high value crops with export potential in order to secure significant growth on the required investment. The development will consist of 580 ha table grapes, 532 ha dried grapes, 300 ha wine grapes, 203 ha dates, 400 ha citrus and 1,151 ha of other crops (mostly cash crops including lucerne, grains, vegetables and seed production).

It is estimated that the proposed development of the 11 projects will generate an amount of R521 million per annum in value of production when all projects are in full production as planned. The impact on employment due to the proposed development is estimated at 3,447 on a direct level, which will include 133 skilled and 1,772 semi-skilled positions. Most of this direct employment will be at the place of production. With the indirect- and induced levels added, the impact on employment increases to more than 3,945 for the entire economy.

The additional employment due to increased production creates wages and salaries for various households. The majority of people employed will be from low income households, but semi-skilled and skilled labour is also required for this development to succeed. The impact on Households due to additional wages and salaries are calculated at almost R66 million per annum with a fairly even distribution between low-, medium- and high income households. This report demonstrates the potential of irrigation development in Namakwa. Through the investment of approximately R1.5 billion over a ten year period, a significant amount of jobs and economic growth can be created which will have a massive direct impact on the communities of the area as well as a significant impact on the economy of the Northern Cape Province as a whole.

Spatial Development Initiatives

A drought investigation was conducted in Loeriesfontein on the 21 October 2014 and Carnarvon on the 23rd of October 2014. Maps of the area including farm boundaries, satellite derived imagery and SPI data were compiled as base documents. This investigation is on hold due to early spring rains that were experienced in these areas.

Presentations, Farmers Days and Training

A farmer's day was attended on the 13th of November 2014 at the farm Coboop in the Namakwa land district. Three talks were presented on the safe use of agro-chemicals, crop lucern production and soil preparation. The farmer's day was ended with a practical demonstration on the calibration of a spray pump at and on the cultivation practices of lucern production.

In total 54 people attended. Local emerging farmers from the surrounding communities of (i.e. Onseepkans, Pella, Coboop and Witbank) were present. It was concluded to have been a very successful farmer's day and the feedback from the smallholder emerging farmers was very positive. A workshop was held on the proposed pilot experimental small scale fisheries at Van der Kloof with all role players to discuss the role each will play in this project.

Participation in Provincial and National Initiatives

The National Crop Estimates Committee meeting was attended in October. This programme participates in the development of a new land capability dataset for South Africa. This dataset will consist of soil, crop and rangeland suitability models. During the workshop that was held on 21-22 October 2014 in Pretoria, the Resource Utilization Unit of this programme contributed data in terms of the grazing capacity norms for Northern Cape Province. This data will feed into the national rangeland capability model. An official attended the Veld-stock meeting in Pretoria on 10 December 2014 where discussions were held about the gene-bank and animal census.

Ad Hoc Investigations

This programme did an irrigation suitablility investigation in order to recommend the permanent transfer of 255 200m³ water entitlement from Voetpads Drift West (Portions 6, 7 and 8) to Voetpaddrift portion 3 in the Modder river area of the Pixley ka Seme District.

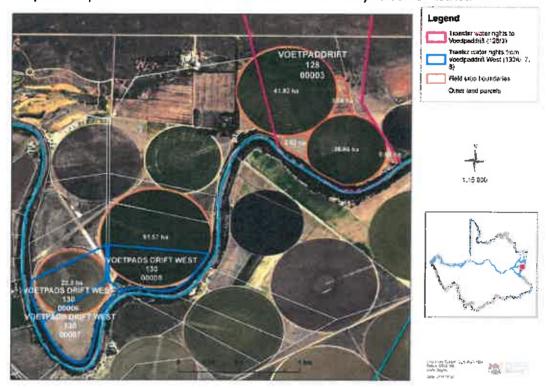

Figure. Area of interest.

The transfer included 255 200m³ (11 000m³ per ha) 23.2 ha water use to be transferred permanently as follows:

- (a) 1,2 ha basic water use from Portion 6
- (b) 10,0 ha basic water use from Portion 7
- (c) 12,0 ha basic water use from Portion 8

Service Delivery Highlights

Marketing

Market Linkages

Efforts have been made to try and link Warrenton Super chicken with a formal market by obtaining a tender document from the Department of Correctional Services in Kimberley to be filled in by project members. The awarding of the tender to this project will be beneficial to it since it will create a sustainable market and lead to its expansion.

MAFISA

Screening Committee Meetings

Two NERPO screening committee meetings were held during the quarter, wherein 15 application forms were screened. The amount of money applied for was R 1 350 000.00.

Cooperatives

Registered Cooperatives

Six applications were handled for new co-operatives to be established, and two of them were successfully registered and certificates issued. Certificates for others are still awaited from CIPC. Registrations for BBBEE Certificates

The following cooperatives in the Frances Baard district are in a process to register for their BBBEE Certificate.

- a) Ponelopele Agricultural Coop
- b) Reiponetse Agricultural Coop
- c) Boikarabelo Agricultural Coop
- d) Reetsanang Agricultural Coop
- e) Killarney Agricultural coop

Export Opportunities

Exposure to export Opportunities through the BRICS Trade, Tourism and Investment ExpoThe BRICS Trade, Tourism & Investment Expo took place at the Mittah Seperepere Convention Centre over a period of three days from the 29th October to the 31st October 2014. The Expo was comprised of international and national delegates. Exhibition space was secured for the following projects:

- a) Niewoudtville Rooibos tea
- b) Kalahari Kid Goat programme
- c) Karoo Clothing

Financial Record Keeping Training

Training of Financial record keeping is provided on request from districts through the Farmer Training and Capacity Building programme. Training was provided to 95 farmers through 6 training events held in Frances Baard (2 event) and John Taolo Gaetsewe (4 events) districts in this quarter. Of all farmers attending, 31 were youth (32.6%) and 39 were female (41.1%).

Support towards Economic Feasible and Viable Projects

The Sub-Directorate provides support to various projects in order to promote sustainable projects. Projects supported during this quarter include all projects as part of the Development plan for Namakwa Irrigation. Crop budgets for the projects are fed into a model to determine feasibility and viability against the development cost of the project and evaluate the projects against a cash flow analysis and return on investment. All projects were planned against an activity schedule and timeframe and all projects costed. The total impact of the proposed Namakwa Irrigation development was then calculated and includes backward and forward linkages, impact on GDP and employment, etc. these findings were included in the report.

PROGRAMME 7: RURAL DEVELOPMENT COORDINATION

The purpose of the programme is to co-ordinate the intervention programmes of all departments and institutions in rural areas to ensure that the land and agrarian reform and rural development mandate is achieved. To coordinate joint planning, identify specific areas for targeted interventions, and monitor progress with CRDP implementation plans in the province.

SUB-PROGRAMME 7.1: DEVELOPMENT PLANNING AND MONITORING

The purpose of the Sub-programme is responsible for the coordination of all government departments' planning in the designated CRDP sites.

Service delivery highlights

Social Facilitation

The Sub-programme Social Facilitation in collaboration with the Directorate Agricultural Economics, sub-programme Agri- Business Support and Development conducted training sessions with three community structures in Vredesvallei. This was a follow up training from the previous training the groups received in the previous quarter. This current training was focused on developing of business plans and the actual registering of the focus groups.

Farm worker Development Advocacy Session

Three advocacy sessions were held to sensitise farm workers about their rights and conditions of service. One session was held in ZF Mgcawu and two other sessions in John Taolo Gaetsewe. SEDA, Joe Morolong Municipal Youth Desk, LED coordinator and the Human Rights Commission made presentations at the JTG session focusing on enterprise development, youth development, Promotion of Access to Information Act, Promotion of Just Administration Act and the functions of the Equality Court.

Government Services

The focus for this quarter was on Sectorial Determination. Farm workers also requested to be trained on the Basic Conditions of Employment Act and the Labour Relations Act. The Provincial Delivery Forum (Stakeholder structure established to improve conditions of people working and living on farms) has requested the Dept. of Labour to conduct the training.

CRPD

Renosterberg Municipality

Renosterberg Production inputs Ilima: Porky Piggeries and Chikaina

900 bags of starter, grower, finisher and sow and boar feeds were delivered to the two projects 11/10/2014. Four members of Porky piggeries received pig production training from Taung College in November 2014. The department constructed the shade for the tractor and slury.

Fencing Project- Renosterberg Commonages CASP: Vosterdam & Petrusville commonages

The fencing project in Renosterberg commonages received R3 million through CASP. A total of 93 job opportunities were created. The main objective of the project is infrastructure development such as the construction of inner and border fences, Installation of water reticulation system to ensure optimal utilization of natural resources.

Vosterdam Commonage

- a) 11 km inner fence completed
- b) 3 Fixed handling facilities constructed.
- c) 11 windmills were repaired

Siyancuma Municipality - Schmidtsdrift

EPWP

The contracts of the workers expired on the 31 October 2014. However there is an extension of a month for 44 workers to fence the graveyards in No1, No 3 and No 5 respectively, which resumed on the 01 December 2014. The project is envisaged to be completed at the end of January 2015.

CASP project- Fencing project

5 kilometers of inner fence have been completed and 45 job opportunities were created.

Community garden

The garden is in operation; the beneficiaries have harvested and sold vegetables (beetroot, spinach & onion) at the SASSA pay point in Schmidtsdrift

Joe Morolong Municipality

Fencing Project:

14 Kilometers of inner fence have been completed so far. 32 job opportunities were created.

Bulk water project

1,8 kilometers of pipe line have been installed at Harrow farm, 1 reservoir dam was constructed at Upton farm. 18 job opportunities were created. 7 livestock handling facilities completed at Abbey, Ashfield and Darnal.

Highlights of Outcome 7

Various consultation sessions were held for the purposes of alignment to the NDP, MTSF and the MINMEC resolutions. Herewith the schedule:

| DATE | SESSION | PURPOSE |
|----------------------------|--|---|
| 18 TH August | Intra Departmental Briefing session | Briefing session from the Head of Department following MINMEC meeting |
| 28 th of August | Joint provincial task team meeting(DALRRD and DRDLR) | Briefing session extended to our sister Department DRDLR |
| 18 th September | Joint Provincial and National workshop(2DDG`s) | Platform for two DDGs allocated to the province following the MINMEC resolution to meet the province and further communicate the importance of Alignment and the Comprehensive Rural Development approach reffered to as outcome7 |
| 23 September | Interdepartmental workshop for the purpose of briefing colleagues and allocation of tasks | Briefing session for other colleagues who did not participate in the meeting of the 18 th but are crucial to the rolling out of the intergrated plans of the Province |
| 25 th September | Sector Department consultation | Workshop for Sector Departments on outcome 7 and theirroles and responsibilities. |
| 26 th September | District consultation and planning workshops | The Department embarked on an intensive program of consultation with municipalities and stakeholders to develop integrated plans for the MTSF based on Chapter 6 of the NDP. |
| 1-2 October | Provincial Technical Committee meeting (LRRDCC) | The purpose of the LRRDCC workshop firstly comprised of all the previously mentioned stakeholders in one room to reinterate the MINMEC resolutions and to finalise the plans |

The First District Land Committee in the Country was launched on the 8 December 2014 in the John Taolo Gaetsiwe District. This Committee is responding to Priority 2, sub-output 2.1 which geared towards accelerating Land Reform and Agrarian Transformation emanating from the Integrated Plans. The Outcome 7 reporting template has been aligned to quarterly performance reporting.
